Cindy, Don & Tyler-

Please take a look at the comments that I inserted for BENM and GSENM in the Google Drive doc.

S.O. 3356_National Monument RMP Summary_ Expand...

I plan to respond to Sally with the following:

BLM Utah has no concerns with to the request related to SO 3356 and WO 410's recommendations.

Utah's only closures within the two national monuments are under the generic CFRs that prohibit the discharge of firearms within developed recreation sites. We do not have any land use planning level decisions related to restrictions on target shooting, hunting or fishing within the Monticello RMP or the GSENM MMP. In the case of Bears Ears, we are already directed under the existing proclamation to initiate a new land use plan. Our assumption is that if any changes are made as a result of action on the Monument review, then we would need to initiate a land use plan amendment for GSENM as well. So, if we're in a situation where land use plan amendments are already pending, we could certainly easily incorporate any new guidance related to hunting and fishing opportunities.

I have included responses and comments within the Drive document. Please let me know if you have any questions. Thanks!

I am on leave the week of 11/20, so please send any comments to me no later than **11/15**. Thanks!

Regards,

Allison Ginn

Good morning, Abbie,

The WO has asked that we review previously compiled information with an eye for specific questions that Sally outlines. I believe Aaron and Allison could take the lead and coordinate with our field folks as necessary. Would you let me know if you agree or if you have another recommendation and I will ask Sally to provide our additional Utah folks access to the google drive as appropriate.

Thank you, Anita

Subject: Due 11/21: Input on SO 3356 Sec. 4b(1) report - amending monument plans

Dear Associate State Directors:

We have been asked to compile a report for the Acting Director in response to Secretarial Order 3356, section 4b(1), about amending national monument management plans to expand hunting, fishing, recreational shooting, and access

opportunities.

Attached is a short executive summary and table (i.e., draft report) that includes information from previous data calls that you have kindly responded to. Information included in the table is listed by State and National Monuments for those monuments with (1) both hunting and recreational shooting restrictions and closures; (2) those with recreational shooting restrictions or closures; or (3) those with no hunting or recreational shooting restrictions or closures.

We would like your review to (1) make sure we correctly captured the information we already gathered from your State; (2) ensure that we provided appropriate planning recommendations; (3) address items noted in red text that ask for reference/citation information; and (4) request your input about specific opportunities to improve and expand hunting, fishing, recreational shooting, and access in national monuments.

Please provide your edits or comments in the attachment by COB on Tuesday, November 21st.

Please let me know if you have questions.

Thanks so much for your time, Sally
